TAILSPIN NEWSLETTER

September 2007 Issue

President: Rick Miller

Phone: 402-624-2530 email: rick.miller@kellogg.com

Vice President / Tailspin Editor: Nelson Carpenter

Phone: 402-330-3249 email: nelsonsc3@cox.net

Treasurer: Bob Zitzlsperger

Address: 12568 Brownley Cir. 68164 Phone: 402-493-1610

Secretary / Safety Officer / Website Director: Joe Halamek

Phone: 402-592-7876 email: docsiggs@aol.com

A Word From The President:

Well I hear the Bud Hall IMAA Fun Fly at Mead was a huge success. Unfortunately I was not able to be there. A special thank you goes out to Randy Tentinger, Bob Burt, and all the others for covering the Fun Fly activities.

I understand that Dean Copeland and his B-25 put on a great show. I wish that I could have seen it in person. I heard it was really cool.

Pete Rosa and his performance flying was apparently an excellent show too. With outstanding flights from others who attended.

Overall, it's been quite a summer and an outstanding season with a lot of flying time to go yet. Don't forget next month's activities that include 1) club meeting 9/4 at Springfield; 2) Old Timers Fun Fly event 9/8; Open Fun Fly and Outdoor Swap Meet 9/9 and; Quickee 500 Racing Event 9/16. Of course, all the flying events are at Mead Field.

Let's be safe and have fun.

Thanks

~ Rick Miller

Treasurer's Report:

To be provided at Sept 4th meeting.

Thank You!

~ Bob Zitzlsperger

Next Meeting:

7:00pm Tuesday, Sept 4, 2007

Location: Springfield Flying Site

Vice-President's Corner:

What a month August has turned out to be. Our monthly club meeting at Springfield on the first Tuesday of August was postponed and then cancelled. The weather and ground conditions to blame. Cross your fingers for Tuesday September 4th at Springfield!

Starting in October our monthly meetings will be held at the Papio-Missouri River NRD offices at Wehrspann Lake near 154th and Giles Road. The meetings will be held indoors through April of next year.

This past month we have brought onboard two new memberships. That brings our total number to 69 members in good standing with dues paid for the year.

If you are not aware, the cornfields surrounding the Springfield site took a pretty good hit from the winds in early August. Our flying field was not damaged, but quite a large area of the cornfields were pushed over leaving the corn at a 30 to 40 degree angle off the ground.

On the 15th of September there will be the Fun Fly/Swap Meet at Mead. This will now be an informal event in that you don't have to sign in. Nor will there be an entry fee required of anyone. Non-club members are welcomed as guests for the day. Bring whatever you want to fly. Also, include your RC items to sell, trade, or swap. There will not be a commission or fee collected by the club. Sorry, but lunch will not be served. This will be a laid-back fun fly and swap meet. Come out and have some fun with the rest of us!!

Come out and fly!

~ Nelson Carpenter

August Meeting News:

The monthly club meeting was scheduled, postponed, and then cancelled due to weather and ground conditions at Springfield. As a result there are no meeting notes for this issue. See you at the September 4th meeting.

Thanks

~ Joe Halamek

OLD - TIMER Fun -Flies

Hosted by
*Western R/C
Flyers*

www.WeFlyRC.org

Location: Western R/C Flyers Mead Field 20 minutes west of Omaha, Ne.

2007 Schedule	
MAY 12th Saturday 9:00am till 2:00pm Open flying	AUGUST 11th Saturday 9:00am till 2:00pm Open Flying

What is the IMAA?

■ **Purpose?** The International Miniature Aircraft Association, Inc. (IMAA) was formed for the purpose of fostering and advancing the operation of large scale radio controlled model aircraft in a setting where informality and safety of operations prevail. Additionally, it was formed to create an atmosphere where pleasure, recreation, fellowship, and co-mingling can be fostered and found to exist amongst individuals enjoying the sport of building and flying large scale radio controlled model aircraft.

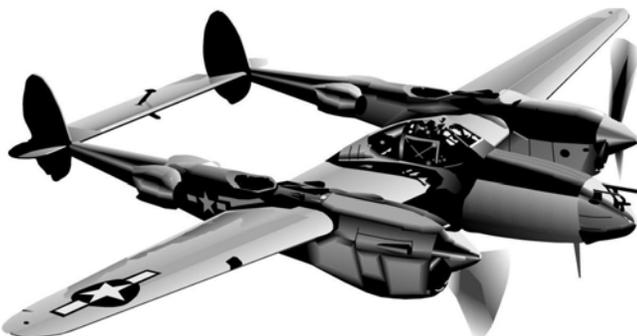

■ **Who is the IMAA?** Although IMAA is a stand-alone association, we are also the Academy of Model Aeronautics' (AMA) largest special interest group *. AMA is the world's largest sport aviation organization, representing a membership of almost 155,000 from every walk of life, income level and age group. AMA is a self-supporting, non-profit organization whose purpose is to promote development of model aviation as a recognized sport and worthwhile recreation activity.

■ **What is Large or Giant Scale?** The concept of large or giant scale is generally considered to apply to radio controlled model aircraft with minimum wingspans of eighty (80) inches for monoplanes and sixty (60) inches for multi-wing aircraft. Ducted Fan and Turbine aircraft with one hundred forty (140) inches combined length and width, measured from wing tip to wing tip at the widest point perpendicular to the fuselage and added to the length of the fuselage, excluding any protrusions. Quarter (1/4) scale replica's or larger with proper documentation (minimum 3 view drawing of an actual person carrying aircraft) which do not fit the size requirements will be permitted. However, the concept does not encompass radio controlled model aircraft that have the potential of carrying a human being.

* **Note:** The IMAA was made a SIG (Special Interest Group) of the AMA in October, 1983. Western RC Flyers affiliation is IMAA Chapter 284 ---- the **284th Aero Squadron** founded in 1987.

Hoosier Report

By Dean Dingman

This is a report on the Hoosier Dawn Patrol event held in Muncie, Indiana a few weeks ago that I attended. First, let me say that it was worth every bit of the 1,365-mile round trip. We had over 30 pilots with 60+ WWI era airplanes. There were folks from Arkansas, Missouri, Iowa, Nebraska, Illinois, Wisconsin, Michigan, Ohio, Kentucky, Pennsylvania, Indiana (and possibly other states as well, I'm not sure), not to mention some very interesting fellows from Great Britain.

I flew my Taube, and got several good flights in during the event. I also finally did a takeoff-to-landing solo flight with the SE5a, including a respectable landing. Both planes flew well enough to make me look like I knew what I was doing. (The planes deserve all the credit!)

The large-scale planes were also well represented. There were about 8 of the 1/3-scale planes (10 or 11, if you count projects), with about 7 flying together in the "Reviews of the Threes." (Including Billy Thompson's 1/3-scale Sopwith Pup, which won the NATS in Sport Scale again this year - two in a row!) "Top Gun" icon Dave Johnson had his

new scale competition plane there, too - a 1/3-scale Albatros D.Va that will soon be a new kit from BalsaUSA. Very impressive plane.

Speaking of BalsaUSA, I got to fly the prototype 1/3-scale Nieuport 17. What a sweet flying plane! We all passed the transmitter around, and had a blast. The only problem with it was that the Fuji engine was giving fits, which kept it grounded part of the weekend.

I also got to fly the BUSA prototype 1/4-scale Spad 13. It goes right where you point it, solid as a rock. They had a small engine on it, but it would be a great match for a G-38.

BUSA is also going to start introducing their lineup in 1/6-scale, designed for either electric or glow. They had the prototype 1/6-scale Sopwith Pup there, and though radio problems prevented it flying, it looks like a winner. They are already boxing up the first production run of 250, which are already sold out! Next will be the Nieuport 17, followed by the others in their WW1 line. Should be great sellers for them, if the interest shown at Muncie is any indication.

I managed to come home with my airplanes in the same number of pieces as they were in when I left, so I guess I wasn't trying hard enough!

Featured Western Flyer

Running up the engines of his Martin PMB Marlin is **Ed Splittergerber** (on left) at last year's float fly held at Lake Zorinsky. This all foam and fiberglassed airplane was built from plans that Ed developed. Although the seaplane no longer exists (okay... it crashed), this is a fine example of Ed's modeling from scratch. Holding on to the wing is Dean Copeland. They were about to drop the seaplane into the lake for a rise-off-water flight once both engines were running.

REWARDS PROGRAM

Remember to use [Hobby Town's Reward Program](#). With every purchase by a WF member, the club receives a credit for an amount equal to 1 percent of your purchase. Be sure to mention your [Western Flyers membership](#) when making a purchase at either Hobby

Fall Fun-Fly
and Swapmeet
10am - 3pm
Saturday,
September 15th 2007
Western R/C Flyers - Mead Field

There were 16 registered pilots for the two day event. The weather was hot, and winds strong out of the south-southwest. Yet there were many flights made and great fellowship among those who attended. Lucky winner of the engine raffle (US 25) was Western Flyers member **Jim Gunhus**. If you did not go to the club's annual event, you missed a good one. Below are a variety of photos captured on both days. If there's not a photo of you and your airplane, my apologies as I wasn't there the entire time. Enjoy the photos.

~ 2007 Western R/C Flyers Event Schedule ~

2007 Tuesday Night Fun-Flies, Springfield, Every Tuesday night May 1st through September 4th! 2007

(Weather Permitting)

Food – Fun – Flying – Friends!
